Martin - this is the meeting on OTEQ model with USGS and BLM to see the results of the model thus far. B/c EPA and BLM haven't yet seen the results, we weren't going to include the State at this meeting but would involve them later.

As for strategy, I am meeting with some of the team this afternoon - enforcement, HH-tox & CIC. Unfortunately, Eco-tox, site assessment and removal are not available for this meeting but we'll catch up with them for their involvement in the strategy soon. I expect to be scheduling a meeting with BLM on strategy in the next couple of weeks and the State soon after that as well as a meeting to bring you up to date on where we are at. And then we'll think about when to get the RA briefed.

More later - let me know if you have other Qs.

Paula Schmittziel

**Subject:** RE: UPPER ANIMAS

Are we involving BLMUSGS and CO in our meeting? Or is this to further converse re the strategy?

-----Original Appointment-----
